FACIAL ACCOMPANIMENTS

DERMAPLANING \$35

This manual exfoliation with a scalpel removes the outermost layers of dead skin cells leaving the skin immediately more smooth and vibrant. Vellus hair is also removed making the face soft and ready for better skincare product penetration and performance.

ELECTRODESSICATION \$100 for up to 3 spots

This is a cutting-edge way utilizing radio frequency to instantly "zap" the epidermal layer to remove broken capillaries, skin tags, age spots and sun spots.

MICRONEEDLING \$200/ three treatments for \$450

Collagen Induction Therapy is a minimally-invasive skin rejuvenation procedure utilizing a motorized surgical instrument with a disposable needle tip to create a controlled injury to the epidermis triggering the body to fill these microscopic wounds by producing new collagen and elastin. This process is called neovascularization and improves skin texture and firmness. It is recommended for repairing scars, deep wrinkles, stretch marks and reducing pore size. Only medical-grade, sterilized disposable tips are used for this procedure.

EYELIFT \$25

This luxurious treatment addresses the periorbital wrinkles, crow's feet and under eye area. A specific microderm attachment gently exfoliates the area to initiate cell turnover and immediately diminishes the appearance of aging. Collagen is then infused into the area with a specific massage technique. Instantly Ageless is then applied for miraculous skin-tightening that you can see and feel instantly.

MICRODERMABRASION \$25

A manual exfoliation procedure using a diamond-tipped head with suction to remove all dead skin cells and force cell rejuvenation for noticeably brighter and healthier skin.

CHEMICAL PEEL \$125/ \$350 for Series of 3 (Recommended)

Progressive and not aggressive, our active peels work over the course of a week to cause tolerable peeling for overall cell renewal and growth leaving you with the utmost radiant skin. Deep pore cleansing; light manual exfoliation of dead skin cells; skin analysis under the Wood's lamp to diagnose specific conditions; administration of appropriate peel solutions customized to the individual; infusion of beneficial corrective serums.
